

**Description**

Don Alarm is a plumbing system safety device that continuously monitors system water pressure and provides an alert (audible beep) when excessive pressure occurs.

**Features**

- 24/7 Continuous pressure monitoring
- Detects harmful & dangerous water pressure
- Audible alert when pressure exceeds 80 psi
- Standard plumbing connection (3/8" compression thread)
- 12 Hour Sleep Mode
- Low battery indicator and test mode
- Easy installation, connect & go
- No monthly fees
- Patented technology

**OPERATING SPECIFICATIONS**

Alarm Set Point	<b>85 psi</b>
Alarm Tolerance	<b>+/- 8 %</b>
Maximum Operating Pressure	<b>200 psi</b>
Operating Water Temperature Range	<b>20 - 120 °F</b>
Plumbing Connections	<b>Compression (3/8" OD Tubing)</b>
Power Source	<b>2 x AA Batteries</b>
Unit Weight	<b>Approx. 1 Lb.</b>

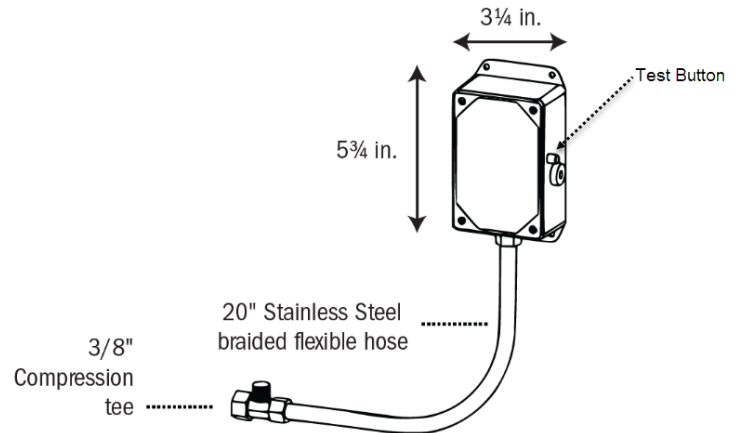

**APPLICATIONS**

- Domestic Water Systems
- Industrial Water Systems
- Commercial and Residential

**Installation**

Install Don Alarm in-doors, on pressurized water system (cold water is recommended). Mount in an upright position (as shown below) to prevent debris from obstructing internal components.

**DIMENSIONS**

**Maintenance**

All plumbing system components should be inspected at least once a year by a qualified plumbing professional. Press the red test button located on the side of the Don Alarm to check the battery. If the unit is normal, you will hear 2 short beeps. If the battery is low, Don Alarm will notify user by 3 quick beeps, once every minute until the batteries are replaced or completely depleted.

# MODEL: DAK10

## Product Data Sheet

Don Alarm Kit with Standard Alert
